

now the fun car takes on a new mood

The *mini* just had to go automatic. And BMC, naturally, just had to go one better with *Automated Stickshift*. It's automatic. It's manual. It's both in one. A silky-smooth automatic. A sporty 4-speed *manual* with no clutch to push. You just "flick" the lever from one gear to the other for the fastest changes in the business. Get the best of both worlds. Test drive the incredible *Morris Mini-matic* at your BMC Safety Drive Centre.
