

Join World Record Club's Cartridge Tape Division and enjoy

stereo music in your car

Choose any Five 8-Track Stereo Cartridges
PLUS—This superb Car Stereo Cartridge Player
all for only **\$98.50** You save \$43

The offer World Record Club is making is unique . . . the opportunity to enjoy the unmatched pleasure of push-button stereo sound reproduction in your car — at a price which is far and away below the comparable cost anywhere in the world!

Already, millions of cars in America, Japan and the Continent are fitted with 8-track stereo cartridge players — it is a proven system perfected over the past seven years, and will come to Australia within the next year or two as standard or optional equipment in most cars made or assembled here. **YOU CAN HAVE IT NOW** — at a price which we can assure you no-one else is ever likely to match — much less better. Why the low price? Because we want to establish the club's stereo cartridge division — and this is our way of doing it.

Send for full details — you are placed under no obligation whatsoever.
